- Ukraine is a land of wonderful nature . Fields , meadows, hills, green forest, mountains and valleys are full of beautiful flowers. They create a unique landscape of our country. The real Ukraine is a land of natural beauty.

3. **Reading.** b (p.215)

b) Read the text using the map of Ukraine.

THE GEOGRAPHY AND CLIMATE OF UKRAINE

Ukraine is one of the largest countries in Eastern Europe. It covers an area of 603 700 square kilometres. Its territory stretches for 893 kilometres from the north to the south and for 1 316 kilometres from the east to the west. Ukraine borders Russia, Belarus, Moldova, Poland, Slovakia, Hungary and Romania. In the south it is washed by the Black Sea and the Sea of Azov. The major part of Ukraine is flat and only 5 % (per cent) of the whole territory is mountainous.

The two mountainous areas in Ukraine are the Carpathians and the Crimean Mountains, but they are not high. The main rivers are the Dnieper, the Dniester, the Bug, the Donets and others.

The climate is mild and soft in the west and in the centre, warm and dry in the east and hot in the south. The flora of Ukraine is rich in a great variety of plants which number up to 30 000. The animal life is also unusual and specific.

The population of Ukraine is 43 million inhabitants. Many nationalities inhabit our country: Ukrainians, Russians, Jews, Poles, Crimean Tatars, Armenians, Belarusians, Moldovans, Bulgarians, Hungarians, Czechs, Greeks, etc.
