MAKING A NEWSPAPER

Millions of people read different newspapers.

Who makes newspapers? Who sends them to newsagents and stations? Let's see.

A newspaper office gets information and different messages through the phone and the internet, from their readers and correspondents. Editors send out reporters and photographers to interview people.

Sometimes the reporters can't get back to the office on time. They telephone their stories. Secretaries type them. News editors choose the best stories. Compositors make the newspaper pages.
