2. Reading.

A l e x a n d r a. A lot of teenagers imitate each other. They talk about the same things, like listening to the same music and wearing the same clothes. If someone does different things, they look at him or her weirdly. As for me that's not good. And as community develops this aspect changes and everyone wants to be special. I like to be original, to have my own style without looking at others. My hobby is foreign languages: English, French and Spanish. Especially I like discussing different issues in English. I like to write for the newspaper and I do an English language heading on Teenage Page in the local newspaper. All these things I can do in the frames of children-youth organization "Communication without borders". Also I am interested in psychology. I am sure it will be very useful for my future life and job.

I don't think I am a typical teenager but I am really fond of music, B-dance and I love communicating with friends like other teenagers.

A l e x. A lot of teenagers in our town smoke, some of them drink. I think it is very bad. Teenagers like watching TV and watch it a lot. Very often they have problems: they don't like studying and going to school and their parents and teachers don't understand them. I am interested in computers and I know English language enough to work on Internet and communicate through it. I have been editing Teenage Page in the newspaper "Misto" for three years. Also I am an active member of the youth organization "Communication without borders" and it gives me an opportunity to attend seminars and trainings. I like playing football with my friends.

I think I'm not a typical teenager because I like studying and I have the aim in my life. But like other teenagers I watch TV a lot. When I have time, I go for a walk, play football or dance Break dance.
